

Real Customer Review – After using MISU

2 months later

Canada

I definitely lose less hair now. The barber I've gone to for 10 years actually asked me what I did to my scalp! I haven't taken any supplements or medication. I only changed my shower head—and this happened. I am going to use continuously. Thank you!"

Thailand

"Living in a hot climate, I used to lose handfuls of hair when exposed to UV rays. A friend recommended this to me, and I started using it daily. After about a month, my hair felt softer, and I noticed new growth. It's not even medicine, so I didn't expect much—but these days, people keep commenting that my hair looks fuller. I'm very satisfied."

Deutsche

"I used to have thick hair when I was younger, but with age, I lost hair around the crown and forehead. After using this product for about 5 months, the thinning areas at the front are now gone. I really think it's thanks to this shower head. My family and friends have all noticed —and it feels great!"

Russian

I'm still quite young, so losing hair was honestly very upsetting. Especially around my hairline and temples: it made tying my hair back feel awkward and unflattering. I started using the MISU showerhead, not expecting much, but after two months, I noticed baby hairs growing back and fewer strands falling out. My scalp feels healthier, and even my husband likes it. No electricity, just water flow. It's pretty amazing.

Japan

“Even though Japan has good water quality, I felt dissatisfied with the water as I got older. I used this shower head casually in my kitchen and bathroom, and after about six months, my hair improved, and my breath became fresher, probably because of the better drinking water. It's really amazing. Thank you!”

—Hanako Hirose used from June to Dec 2024 in Japan

Canada

"At first, I didn't really notice anything. But over time, I started to feel my parting area getting denser. Even now, I see baby hairs sprouting near my forehead. This product is kind of fascinating!"
